UCLA SYMPOSIA ON MOLECULAR & CELLULAR BIOLOGY

8 June 1988

Molecular Biology Institute
University of California, Los Angeles
Los Angeles, CA 90024-1378 USA
(213) 206-6292

Harmon C. McAllister, Ph.D.
Research Director
The Council for Tobacco Research-U.S.A., Inc.
900 Third Avenue
New York NY 10022

Dear Dr. McAllister:

Dr. Gary Clawson, co-organizer of the 1989 UCLA Colloquium Nucleic Acid Methylation, has just notified us that the Council for Tobacco Research will make a contribution of $2500 to help defray the costs of the conference. I want to take this opportunity to thank you and the Council on behalf of the Organizers of the Colloquium and the UCLA Symposia for your interest and support.

All contributions are used exclusively to help defray the travel and lodging expenses incurred by speakers invited to participate in the meeting. The UCLA Symposia has a standard policy concerning industrial sector participants which requests that they seek in-house support for their expenses and not be factored into our conference budgets.

Your support will be acknowledged in the conference Program which is distributed at the meeting as well as in the Abstract Books and Proceedings Volumes of contributed papers published in conjunction with the entire 1989 UCLA Symposia conference series. The Abstract Books will be distributed at the conferences to all registered participants; the Proceedings Volumes will be available from the publisher, Alan R. Liss, Inc., New York, approximately six to eight months following the close of each meeting.

The UCLA Symposia is responsible for all administrative aspects of our conferences, including establishing the travel subsidy budgets for the invited speakers and processing the necessary documentation to permit payment of the subsidies to each individual. Support for our meetings should be made payable to **Regents of U.C.** and sent, with a cover letter, to me at the UCLA Symposia office (we have just moved, new address is: 2032 Armacost Avenue, West Los Angeles CA 90025; telephone 213-207-5042).

We sincerely appreciate your interest in and support for our Nucleic Acid Methylation conference; if you have any questions or if I can be of assistance in any way, please do not hesitate to contact me.

Sincerely,

Hank Harwood

Robert (Hank) Harwood, Ph.D.
Gift Coordinator
